

COVID-19 Policy

If you feel ill or are experiencing symptoms, please postpone your visit or schedule a televisit instead. Please be advised that masks are required upon entering the office and temperature checks will also be performed at this time. We have a strict protocol for sanitizing the office routinely and the Pimple Place team members wear a mask at all times. To avoid crowding in the waiting room, we ask that patients attend their visit unaccompanied unless they are a minor.
